Extraprofessional interests

Sport & Music: sport has been always present in my life as amateur activities. I was involved in individual and team ones. Moreover I played piano for 7 years.

Travelling: I have a strong passion for travelling and discovering new cultures and places and I hope I will extend my knowledge of the world in the future.

Personal characteristics

I am used to working hard in order to get excellent results. I love challenges and I am very keen on going through non-predefined paths, because I think that very hard targets give satisfaction, gratification and future professional and personal success.
